- 02. Polly chair on 4 leg base.

- 03. Fold table. P52.
- 04. Dalby 850 SQ table. P54.

polly
chair

design

The Polly chair fundamentally provides a very comfortable ergonomic seat with as little visual detail as possible. The Polypropylene seat shell has subtle edge details, a soft texture and just the right amount of flex, all of which combine to provide a tactile and satisfying sitting experience. Polly performs quietly and combined with our easy colour range, we're sure anyone can find a spot for this champion chair.

technical

Polly is moulded in the UK using 100% recyclable glass re-enforced polypropylene. Polly is available in 6 standard colours. The 2 base options are manufactured using tubular or solid bar steel and are finished with a hard wearing powder-coat (paint) or chrome. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

sizes

POLLY-CH-SL
Polly chair on sled base

Polly chair designed by naughtone

general manufacture description

The Polly chair is available in a range of finishes, for the purpose of this document we have a specific example from the range:

Polly Sled.
POLLY-CH-ST4

The Polly chair shell is injection moulded in 30% glass fibre filled polypropylene. This is a recyclable material. Steel inserts (for affixing bases) are screwed into 4 bosses on the underside of the chair. These can be easily turned out to leave an uncontaminated component for recycling.

The Polly chair 4 leg base is machine bent from mild steel tube and finished with a polyester powder coat. Polypropylene feet are pushed in to the bottom of the chair legs and are easily removed for recycling. The 4 leg base also has 2 x silicon extrusions clipped to the underside of the frame for chair stacking purposes – again these are dry fixed and easily removed for recycling. The 4 leg base is screwed to the chair shell with 4 x steel screws.

facts

- naughtone is FISP and ISO14001 certified
- 6.165kg Total weight
- 99% Recyclable (shell, frame & fixings)
- 28% Recycled content (frame & fixings)
- 127% Recycled & Recyclable content
