rhyme

modular seating

design

A landscape to approach from all angles, Rhyme is a modular seating system that can be used as a simple island or used to create ad-hoc zones within a space. Each of the 5 pieces in the range have the same trapezoid footprint to allow easy planning – get creative and make your own Rhyme landscape.

technical

Rhyme is upholstered over CMHR foams and FSC Birch plywood frames in our UK workshop. The individual modules are supplied in parts, split sensibly for easy delivery and installations. The units bolt together in position and can be reconfigured if necessary. Rhyme is sat on simple plinths with hard wearing powder coated steel fascia panels. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

sizes

	<p>01 RYM-BEN Rhyme bench metric (mm) W1400 D1400 H1350 seat 420 imperial (in) W55 D55 H16.5 seat 16.5</p>
	<p>RYM-S Rhyme single metric (mm) W1400 D1400 H1350 seat 420 imperial (in) W55 D55 H53 seat 16.5</p>
	<p>RYM-MID Rhyme middle metric (mm) W1400 D1400 H1350 seat 420 imperial (in) W55 D55 H53 seat 16.5</p>
	<p>RYM-END-A Rhyme end unit A metric (mm) W1400 D1400 H1350 seat 420 imperial (in) W55 D55 H53 seat 16.5</p>
	<p>02 RYM-END-B Rhyme end unit B metric (mm) W1400 D1400 H1350 seat 420 imperial (in) W55 D55 H53 seat 16.5</p>

base options

Plinth fascia in Black or White.

Plinth fascia in RAL colour.

Plinth infill panel.

Rhyme designed by naughtone

general manufacture description

Rhyme seating has a number of different modules within the range, all of which have a very similar percentage of materials within them. To demonstrate the Rhyme seating range we are using data here from the Rhyme End A unit. RYHME-END-A.

Please use our material index for clarification on many materials listed here.

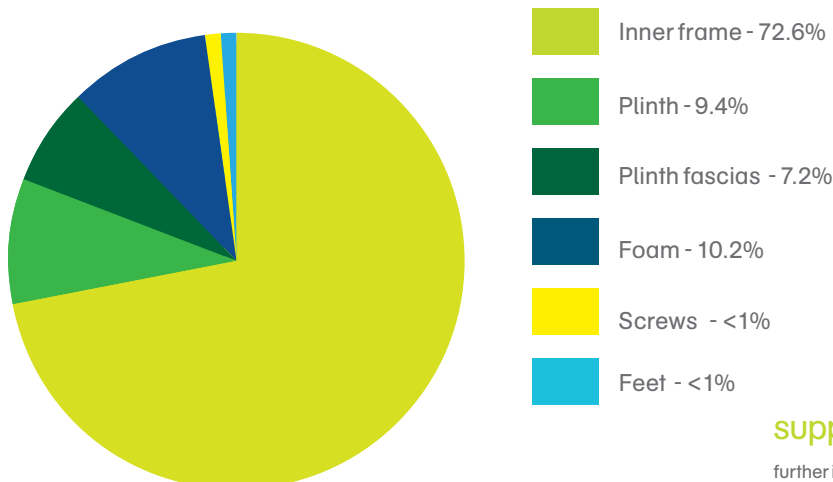

Rhyme seating is constructed with a CNC cut birch plywood frame. This method produces a very precise and stiff frame, ideal for the accuracy required in modular seating components. The frame is then covered with CMHR foams, then upholstered with the customer selected fabric. (Fabric is not included in these calculations as fabric is determined by the client – we offer standard ranges of 100% wool fabrics which are naturally sustainable and re-useable or compostable at the end of life).

The plinth is constructed again with birch plywood and solid hardwood corner legs. The plinth fascias are made with laser cut and bent mild steel, this is then finished with polyester powder coat. All components could be separated by hand for end of life recycling. All fixings used in Rhyme are mild steel and the adjustable feet are mild steel and polypropylene

facts

- 100% FSC certified timber
- naughtone is FISP and ISO14001 certified
- 87.4kg Total weight
- 17.4% Recyclable (foam, fascias, fixings and feet)
- 4.4% Recycled content (plinth fascias)
- 82.1% Re-useable (frame and plinth)
- 21.8% Recycled & Recyclable content
