

Cuoio. Design: EOOS.

The logic of minimalism determines the shape and materials of the Cuoio Chair. Leather and steel are the components of surface and framework. Minimalist and timeless. The fact that the chair is separable and recyclable ensures it is a miracle of sustainability. The slits in the seat and back lend the chair its typical shape. The flexible back ensures comfort. Shaped for comfortable sitting. The Cuoio Chair comes both with and without armrests, entirely in black or in natural shades of brown.

Model no.	1200, 1201
