pegasus

designed by Radar

Developing our product portfolio to include meeting and conference tables was a natural progression for Boss Design. Our impeccable credentials in the industry have resulted in a table range that is at the cutting edge of design, superbly engineered and uses only the finest materials and componentry. Pegasus can be complemented by a range of high quality seating and is supported by the Boss Design customer service that is second to none.

Pegasus is certified to BS EN 15372: 2008, test level 2 and comes in a range of dimensions and forms. The unique feature of this table is its cast aluminium leg detail which is available in five finishes; painted silver, black and white, polished aluminium and chrome. Pegasus can be specified as a square, rectangular, oval, elliptical or circular table and comes in a selection of table top finishes with either a square or a reverse chamfered edge profile.

Boss Design is pleased to offer a design and space planning service to help you to maximise the potential of your workplace. We realise that space planning is important to you and can enhance an environment for your users. The team at Boss Design are experts in workplace planning and are happy to collaborate on projects no matter how large or small.

This image shows the Pegasus table with a 1200mm diameter oak veneered top and a reverse chamfered edge profile. The aluminium legs are chromed and come with black adjustable feet.

The accompanying chairs shown are from the Boss Design Serif collection.

This image shows the Pegasus table with a 2400mm x 1100mm Black American Walnut veneered elliptical top and a reverse chamfered edge profile. The aluminium legs are chromed and come with black adjustable feet.

The accompanying chairs shown are from the Boss Design Pro collection.

| This image shows the Pegasus table with a 2000mm x 1000mm oval maple veneered top and a reverse chamfered edge profile. The aluminium legs are chromed and come with black adjustable feet.

| The accompanying chairs shown are from the Boss Design Serif collection.

This image shows the Pegasus table with a 1500mm x 1500mm square frosted glass top. The frame and legs are black and come with black adjustable feet.

The accompanying chairs shown are from the Boss Design Kruze collection.

This image shows the Pegasus table with a 2400mm x 1200mm rectangular Black American Walnut veneered top and a square edge profile. The aluminium legs are chromed and come with black adjustable feet.

The accompanying chairs shown are from the Boss Design Delphi collection.

This image shows the Pegasus table with a 3000mm x 1500mm rectangular oak veneered top and a square edge profile. The aluminium legs are chromed and come with black adjustable feet.

The accompanying chairs shown are from the Boss Design Delphi collection.

This image shows the Pegasus table with a 4500mm x 1500mm Black American Walnut veneered top and a reverse chamfered edge profile. The aluminium legs are chromed and come with black adjustable feet.

The accompanying chairs shown are from the Boss Design Mars collection.

# | cable management & power and data

## cable management

The Pegasus table range comes complete with cable management. Every table size and shape has this feature fitted as standard. Cables can be fitted neatly and discreetly into every leg and support rail.

Pegasus offers full power and data capability. Its flexible leg and rail design ensures the power and data units can be positioned anywhere on the table top and in multiple locations.

When power and data is specified price and delivery will be confirmed upon application.

## power and data

To ensure the utmost reliability Pegasus incorporates the Reddot award winning Schulte EVOLine® power and data units. There are two options to choose from:- EVOLine® Port has a retractable aluminium housing with connections for power and data. The unit is easy to install and does not require adapters. The units are available in silver, black, polished chrome, polished gold and antique brass.

EVOLine® FlipTop is made of solid stainless steel and offers a timeless design. International modules for electricity, data and multimedia can be effortlessly combined. The cable outlet strip is available as a brush or rubber lip.

Both units can be closed with power and data connected ensuring a clean and tidy working surface.

- Legs and frames will be available as standard in polished aluminium or RAL 9006. Chrome, white and black powder-coated legs and frames are available to special order and priced upon request
- Cable management through the legs and rails will be fitted as standard
- Power and data options are available on every table top size and finish and will be priced on application

# | environment

## pegasus ecological credentials

Recycled content	61.37%
Recyclability	100%
Returnable packaging	CFC & HCFC Free
Carbon Neutral	Yes
Climate Neutral	BS EN ISO 14001

## pegasus environmental product breakdown

Materials	Weight	% Weight	Recycled content	Recyclability
MDF - 2000mm x 1000mm x 30mm veneer top	42kg	86.35%	65%	100%
Aluminium - Support rail, polished legs	5.322kg	10.94%	33%	100%
PVC - Cable management	0.477kg	0.98%	0%	100%
Steel - Corner brace, fixing screws	0.771kg	1.58%	100%	100%
Nylon & Steel - Leg glide	0.069kg	0.14%	30%	100%
			61.37%*	100%*

\* Please note that these figures are based on the Pegasus table with a 2000mm x 1000mm MDF veneered top only, and polished aluminium legs.

The total CO2 measure has been officially verified by FIRA and includes utilities and transport from suppliers.

Alternative breakdowns are available on request.

CO2 per 1000 units	83.33 tonnes
CO2 per unit	0.08 tonnes

## environmental statement

At Boss Design we are passionate about caring for the environment. We are holders of the Queen's Award for Enterprise for Sustainable Development, FSC accredited and a carbon neutral company.

Not prepared to compromise on quality, wherever possible we purchase raw materials with the highest recycled content. We work with like-minded suppliers who use raw materials and components obtained only from ethical sources.

We constantly review our global logistics operation to ensure that we minimise any negative impact on the environment. We actively monitor the carbon footprint of our products throughout their life-cycle and work closely with the Greenworks organisation to deliver our award winning end-of-life product management process. This service allows clients old corporate furniture to be collected, redistributed and reused by local good causes. Where furniture is not fit for reuse it is broken down and recycled.
